

Student Expectations Contract

Jennings Experiential High School

2006-2007

The JEHS program has high academic, attendance and behavioral expectations. All students and parent/guardian must sign a Student Expectation Contract before they can begin school.

The following are the expectations of all students for the 2006-07 school year at Jennings Experiential High School. These include academic and behavioral expectations.

1. Completion of academic requirements. 12 credits minimum per year.
2. Will earn an average Productive Worker score of at least 3 during the school year.
3. Will earn an average Responsible Citizen score of at least 3 during the school year.
4. Participate in all academic activities including the preparation weeks and both extended field experiences.
5. Attend school 100% of school days. Only illness (with Doctors note) related to absences will be accepted. We believe high attendance correlates directly with high academic success. Further, we have only 5 weeks to prepare for our major trips and it is critical no days are missed. The school day is from 8:00 AM to 4:00 PM Students must be in school all day or will be counted absent. Each absence will count as one behavioral step. See student JEHS Student Guide. Basically, three absences will result in removal from the school.
6. Meet JEHS Behavior Expectations as outlined in the JEHS Student Guide.

I agree to the above student expectations contract:
